

Facility and Family Health, Safety, and Cleanliness Protocols

Revised for Spring 2021

In an effort to keep staff, volunteers, participants, and guests safe and healthy, First Tee - GCNKY is continuing adherence to the following protocols. These measures have been carefully considered and make every effort to comply with best practices defined by Responsible Restart Ohio and Back2Golf's Junior Golf Programming Addendum. Due to the fluid nature of the pandemic, these are subject to continue evolving with the situation.

Participants, Parents, and Families Safety Protocols:

- Water will NOT be provided. Participants should bring their own water to class.
- Adults will not be permitted in the building to socialize or wait during class – only to use the restrooms. Specific capacities and facility expectations should be observed at all partner courses.
- Single-use name tags will be provided to participants each class.
- Participants, family members and guests are encouraged to wear cloth facial coverings during instruction, check-in and pick up. On course play may not require a facial covering.

Arrival:

- Participants should arrive no earlier than 15 minutes prior to the start of their class.
- Parents should self-monitor temperatures at home. If a child has a fever of 100 degrees or higher, they should not come to class. You will be asked health questions prior to being provided your child's nametag.
- All participants should sanitize hands upon arrival, then pick up their own name tag from the check-in table and make their way with their water and equipment to their designated cone and safety circle.
- A safety circle will be provided for each child as a place to leave water and clubs for class. Participants should wait in the safety circle until the coach begins class.

Class:

- During classes, proper distancing will be followed- contact-less classes will be observed (i.e. no handshake lessons) and warm-ups/activities will not have shared equipment.
- Each participant should have their own equipment – sharing is prohibited but may be borrowed from the Chapter. Any borrowed equipment from the chapter will be sanitized after each class.
- Any clubs borrowed will be returned and sanitized at each facility following class.

Dismissal:

- Parents/caretakers should line up at the designated pick-up area and wait until their child is called on.
- All participants should sanitize hands at the end of each class.
- Inclement weather decisions will follow course specific information provided in the Parent Info Guide.

Staff, Coaches and Volunteers Health and Safety Protocols:

- If a Staff member, coach or volunteer is feeling ill prior to coming to work, they must stay home. Notify your direct report ASAP of your need to miss work/class.
- Staff, coaches, and volunteers will wear facemasks where/when appropriate unless it's unsafe to do so. This is the case when in the Clubhouse or observing/assisting with classes. Face masks should be worn during check-in, warm-up, instruction on the range and putting green, and during bridge to life.
 - Face masks are not required if a staff member is working at their desk. Face masks are not required with participants on the golf course if proper social distancing is observed.
- Staff will clean surfaces inside the clubhouse regularly.

Reeves Facility Cleanliness protocol:

- Once all staff members arrive, all high touch surfaces will be sanitized regularly.
- Prior to leaving, an individual staff member will tidy their workspace, clean surfaces and high touch areas
- Only five participants will be permitted in the Clubhouse at one time for the restroom. We ask parents remain in cars or run errands during class, but may use the restroom.
